Claims 3-9 are presented for examination.

The amendments and remarks filed on April 30, 2001 have been received and entered.

Claims 3 is rejected under 35 U.S.C. 102 (b) as being anticipated by Japanese Patent Application 8-169884 for the reasons set forth on page 2 of the office action of January 29, 2001 and the following reasons.

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 4-8 are rejected under 35 U.S.c. 103 as being unpatentable over The Japanese Patent Application 8-169884.

The Japanese Patent Application teaches the use of mGluR1 antagonists in a pharmaceutical formulation for the treatment of cerebral infarction. The above reference differs from the claimed invention in the presence of a specific mGuR1 antagonist. One skilled in the art would have been motivated to employ the teachings of the above reference, since it relates to the use of mGuR1 antagonists for the treatment of cerebral infarction. The substitution of one mGuR1 antagonist for another and use it for the same purpose does not create a patentably distinct use in the absence of evidence to the contrary. Applicant has presented no evidence to establish the unexpected or unobvious nature of the claimed invention, and as such, claims 4-8 are properly rejected under 35 U.S.C. 103.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
